

# Attention CAPT Members

## Some SSA information omitted from first contract printing

CAPT regrettably reports that an error was found in the printed version of our newly released labor contract with the State of California. The contract should be arriving in CAPT-member mailboxes in the coming weeks.

The error included missing Special Salary Adjustment information for Psych Techs and Sr. Psych Techs in Safety at Appendix A-2, located on page 126. The contract has been revised to include the SSA information missing in the original printed version. The revision added a page to Appendix A-2. Given that an additional page was added, the table of contents has also been updated.

Please note that while some of the SSA information is missing from the first print version of our contract, it is included in the CalHR pay letter and is in effect. The information will also appear in any future CAPT contract printings.

Our contract's digital version is correct and is available to you for downloading or viewing at [www.psychtechs.net](http://www.psychtechs.net).

If you have any questions or would like more information about our new contract, please contact your local chapter and keep connected to [www.psychtechs.net](http://www.psychtechs.net).
